EDITORIAL NOTES

The London Post in announcing that Mr. Goschen has agreed to succeed Lord Randolph Churchill in the leadership of the House of Commons, expresses a fear that his appointment will lead to an abandonment of the Tory-Democratic policy, upon which it is necessary to fight the Conservative battle. The Post again urges upon Lord Salisbury, the imperative necessity of seeking some means to regain Lord Randolph.

Number one, volume one, of the *Esmeralda News*, published at Hawthorne by a stock company, with P. M. Bowler, Jr., as editor and S. H. Rosenthal as business manager, is at hand. It is the size of the late *Candelaria True Fissure*, on the remains of which it was founded. We hope for the success of the new venture in Nevada journalism.

It is not thought probable that General Logan's body will be removed from its present resting place at Washington before next Spring.

The Russian Czar, like Secretary Bayard's appointees, is said to have taken to strong drink.

FOREIGN DISPATCHES

Terrible Loss of Life.

MADRID, January 3.

The fire in the reserved enclosure at the Peoples Park on Friday, lasted only 15 minutes. It is now ascertained that 300 persons lost their lives, being either burned to death or suffocated, while the number injured is placed at the same figure. The Commander-in-Chief and the first Prince of Travancore, who were present, escaped uninjured. Among the victims were two European women, and many European children are missing. The fire is supposed to have been of incendiary origin.

Fatal Gas Explosion.

LONDON, January 3.

An explosion of gas occurred yesterday in the Cambridge barracks at Portsmouth, doing considerable damage. Four men were killed outright, others are still buried in the debris, and it is not known whether they are alive or not. The number of injured as far as known is 13, and some of these it is feared are fatally hurt.

Goschen Accepts.

LONDON, January 3.

Goschen has, it is officially announced, accepted the office of Chancellor of Exchequer. Lord Hartington fully approved of Goschen's course, and the latter's adherents say it is purely as a Liberal-Unionist that Goschen joins the Government, which relies upon Unionist's support for success.

Earthquakes in Maryland.

BALTIMORE, January 3.

Dispatches were received in this city this morning from Westminster, Frederick, Emmetsburg and other towns in Western Maryland, stating that the inhabitants are considerably excited over violent shocks and land rumblings which had awakened them from sleep and continued at intervals from 11:30 last night until early this morning. No damage was done as far as can be learned, but as the country is mountainous the people are apprehensive of grave trouble. Congressman Shaw, who lives at Westminster, says he was awakened by what sounded like the blasting of rocks, and pictures were shaken from the walls in other houses. He heard two distinct shocks in rapid succession. The mercury at Westminster was four degrees below zero this morning.

Suffering in Arkansas.

FORT WORTH, January 3.

The Fort Worth Gazette published to-day an official report of the convention of County Judges, held at Albany, in this State. Twenty-one counties were represented in the convention. The total number of people in those counties now in need of food, clothing and fuel is placed at 30,000 while thousands more are without seed to plant during the coming year. An appeal is made to the State and National Legislatures and to the country at large to furnish \$500,000, to avert immediate wants.

Insuring Infants Enjoined

NEW YORK, January 3.

Deputy Attorney General Porter recently moved before Justice Barrett, in the Supreme Court chambers, to have the Globe Mutual Benefit Association restrained from carrying on its business, upon the ground that the company was insolvent, and that the insurance of infants, as practiced by the association is unauthorized by law. Judge Barrett handed down the decision to-day, in the case. He says the business of this company is limited to that of life and casualty insurance, upon the co-operative and association plan; the only members who accept the contract obligations of such membership can be thus insured.

Infants are not eligible, as they cannot make a contract and parents cannot insure their children's lives as in such co-operative companies, only members can be insured and an infant cannot be a member of the society. Judge Barrett concludes by saying that this branch of the company's business must be enjoined.

The Express Robbers.

ST. LOUIS, January 3.

Fred Wittrock, Thomas Weaver and W. W. Haight, the latter of whom was brought here from Louisville Saturday, were photographed to-day. These are the only members of the train-robbers' gang who will be prosecuted in this city. All the others who were arrested have been released, with the exception of Oscar Cook, who will answer to the Court in Kansas City. All of the stolen money found in the possession of Kinney, Mrs. Haight and others has been recovered, and, as they knew nothing of the robbery until their arrest, the Express Company considers that nothing is to be gained by prosecuting them. As to Frothingham's guilt or innocence, the detectives and officials have little to say. It is pretty generally believed, however, that Wittrock's contemplated official statement of the robbery will remove all suspicion that Frothingham was in any way voluntarily connected with the robbery.

The Logan Fund.

WASHINGTON, January 3.

It has been decided to invest the Logan fund in United States four per cent. bonds, and Captain George E. Lemon will purchase at once, as the first installment, \$20,000 worth of such bonds, have them registered in Mrs. Logan's name and deliver them to her. A subscription of \$1,000 was received from Montreal, with the following letter:

THE ALBEMARLE, Montreal,
 December 19, 1886.
 Captain George E. Lemon, Washington—Dear Sir:—Feeling and knowing that we have lost the best friend we may ever expect to have—a soldier, a statesman and more than all, a gentleman—I take pleasure in contributing to the fund for Mrs. Logan \$1,000. Please notify me where and to whom I shall send check. Respectfully,
 GEORGE W. MURRY,
 United States military telegraph operator under General John A. Logan.

Another Explosion.

YOUNGSTOWN, Ohio, January 3.

A terrific explosion occurred at Wick Brothers & Co.'s bank this morning. Will Silliman, the book-keeper, opened the vault and struck a match to light the gas jet. The gas, which had been escaping since Saturday, ignited, blowing the side and front out of the building, also the front of the United Lines Telegraph Company's building. Silliman's hair and whiskers were burned off, and he is badly burned and perhaps hurt internally.

New Steel Rail Establishment.

PITTSBURG, January 3.

Carnegie Bros. & Co. have decided to erect a new steel rail mill at Braddock, and work on the structure will be started within 30 days. The new plant will cost upwards of a million dollars. The company's works will then have a capacity of 400,000 tons of rails per annum, or about one-third of the entire production of the country.

An Officer Removed.

WASHINGTON, January 3.

The Secretary of the Treasury to-day directed the removal of A. B. Scribo

from the office of Bank Examiner at New York. He refused to resign at the request of the Comptroller of Currency. V. P. Snyder, the newly appointed examiner, left Washington Saturday with instructions to take charge of the office this morning.

THE CLOSING SCENE.

Judge Boardman Surprised by the Officers of his Court.

A very pleasant affair took place in the District Court room last Thursday, at the close of the business of the day, consisting of eulogistic speeches by members of the bar, and the presentation to the retiring Judge of a handsome watch-chain by the bar and other officers of the court. When at the close of the regular business of the court, the Judge asked if there was anything further to be done before final adjournment. T. V. Julien, the clerk, and also a member of the bar, took the floor and in the following eulogistic speech made the presentation.

If Your Honor please—For nearly two years, chiefly because of the relations I have held to the Court—an officer in at dual capacity—I have not felt at liberty to address your honor from this floor, but after having for so long maintained a respectful silence, and the occasion being the end of your retirement from the position of presiding officer of the court, I feel that if this should be deemed a transgression of the bounds of propriety, I may for the moment be excused. The great powers and discretion given to the judge of a court of record, makes the position one of the most important, sacred and honorable in the gift of a free people, and he who performs the duties thereof, faithfully, fairly and honestly, deserves well of his countrymen. During your term of office, many of the most intricate, difficult and perplexing legal problems, with which courts have to deal, have been presented and passed upon by you, and it can be but a source of satisfaction to you, as I assure you it has been and is to the officers of the court, to know that in every case involving important legal principles, your judgment has been affirmed by the court of last resort. With the multiplicity of questions and interests with which you have had to deal, to say that no one was at any time disappointed at some ruling or decision, would be to say that those interested as well as those presenting the question, were more than human. And now, since the powers that be, have willed that the judicial functions which you have so ably and satisfactorily administered for the past four years shall be assumed by another, before the final order is pronounced, which shall, for the present, end your official career, it is my privilege and pleasure to extend to you the kind wishes of every officer of this court and I beg to assure you that in leaving the bench to assume your former station at the bar, each and every officer of the court greets you with feelings of kindness, and with sincere wishes for your happiness and success; and in token of sincerity it affords me great pleasure, on behalf of the officers of this court, to present you this small token which we beg you to accept as such, and keep in memory thereof, and of this occasion. It is not elaborate nor is it expensive, but we ask you to accept and measure its value with the friendship of those who present it. Mr. Julien was followed by Judge King, W. L. Knox and others in brief eulogistic speeches, welcoming His Honor back to the ranks. The whole proceedings were so entirely unexpected, and took Judge Boardman so completely by surprise that he seemed lost for the moment for language to express his gratitude, but recovering his composure, returned his thanks for the emblem and all that had been said, in an appropriate and feeling manner, and soon after declared the Seventh District Court adjourned without day.

The present was a horseshoe watch-chain of gold, the obverse side of which was inscribed with rich gold quartz, and on the reverse side was neatly inscribed, "From the officers of the Court to Judge W. M. Boardman, December 31, 1886."

What True Merit Will Do.

The unprecedented sale of "Boschee's German Syrup" within a few years, has astonished the world. It is without doubt the safest and best remedy ever discovered for the speedy and effectual cure of coughs, colds and the severest lung troubles. It acts on an entirely different principle from the usual prescriptions given by physicians, as it does not dry up a cough and leave the disease still in the system, but on the contrary, removes the cause of the trouble, heals the parts affected and leaves them in a purely healthy condition. A bottle kept in the house for use when the diseases make their appearance, will save doctors' bills and a long spell of serious illness. A trial will convince you of these facts. It is positively sold by all druggists and general dealers in the land. Price, 75 cents, large bottles. nov28y1

A Few Firms.

George Larcombe and Edward Coffin, two of Reno's most worthy young men, to-day opened a grocery, fruit and vegetable store in the building formerly occupied by J. W. Parker, on North Sierra street. The boys both thoroughly understand their business and will leave nothing undone to accommodate all who favor them with their patronage.

The Agony Over.

By the time to-day's GAZETTE goes to press the successful candidates for legislative positions will be happy, and the unsuccessful ones will be correspondingly miserable, but one of those neat-fitting White House suits would make them forget their misery.

THE LEGISLATURE.

Allen of Washoe, Miss Mollie Brown of Storey and Miss Ella Edwards of Douglas; Messenger, C. W. Calvin of Ormsby; Pages, W. W. Wilson and F. Up-ton of Ormsby.

State University.

This morning Professor McCammon began the examination of new students who wish to enter the winter term of the University, and on Wednesday at 9 o'clock the regular term's work will begin.

During the spring and fall terms which were inaugural terms and a part each of the other, 52 students matriculated. Of these, 20 were from the city of Reno, 21 from ranches and outside towns of Washoe county and 11 from other counties than Washoe. Two other bright young students came from the eastern part of the State and made application for admission, but not having had adequate school advantages, did not find classes in the University suited to them, and were compelled to seek tuition elsewhere.

These figures will be interesting to every lover of higher education and encouraging to our legislators who stand to-day between our young but rapidly growing State University and the treasury which contains the "one thing needful" to make it a power for good in our State.

The New Judiciary.

The newly elected District Judges met at Carson to-day and elected Richard Rising as presiding Judge. The work was divided as follows: Rising to take Storey, Ormsby, Douglas, Lyon and Esmeralda, with his residence at Virginia City; Bigelow takes Washoe, Churchill, Lander, Nye and Elko, with his residence at Reno, and Fitzgerald takes the balance with his residence at Eureka.

PERSONALS.

J. E. Jones is down from Eagleville on a visit to his family.

Miss Estelle Nash who has been visiting at Virginia City, returned home last night.

Mrs. L. E. Laselle who for the past two months has been visiting her sister Mrs. C. A. Richardson, returned last Friday night to her home at San Francisco.

M. T. Coats, who since last March has been running Dr. Powell's Flouring mill in Paradise Valley, returned home last Thursday night, the mill having shut down for want of grain.

A Good Beginning.

A great many people remarked on Saturday that in point of weather it was the nicest New Year's day they ever saw. Very few attempted to do any business, everyone feeling that although the poor are still here, and there are some suffering in the land and the hearts of many are heavy with sorrow, yet after all, this is a favored land and its inhabitants have much to be thankful for, and they could well afford to devote the day to rest and hospitality.

That Rarest of Combinations.

True delicacy of flavor with true efficacy of action, has been obtained in the famous California liquid fruit remedy, Syrup of Figs. Its pleasant taste and beneficial effects have rendered it immensely popular. Large bottles for sale by Wm. Pinniger, Reno, Nevada.

Hay Scarce at Winnemucca.

James Sloan sold 14 cars of his beef at five cents, a month ago to Godeaux, and consigned six cars to himself at San Francisco. He says hay is very scarce on the Humboldt and is worth \$10 a ton right on the ranch.

Notice!

Manning & Jaques have been appointed plumbers for the Reno Water Co. All other persons are warned against tampering with the mains or making connections thereto. Those having plumbing to do can only protect themselves by employing the best workman, and we recommend the above firm to any who may require such services. A. A. EVANS, dectif Supt. Reno Water Co.

More Richness.

Governor Stevenson has struck good ore in the lower tunnel at Galena near Steamboat. It is 174 feet below the old work. The tunnel is over 1,000 feet long and comes right into the mill. It will all come to the Reno reduction works.

Geo. Andrews, overseer of the Lowell Carpet Corporation, was for over 20 years, before his removal to Lowell, afflicted with salt rheum in its worst form. His ulcerations actually covered more than half the surface of his body and limbs. He was entirely cured by Ayer's Sarsaparilla. See certificate in Ayer's Almanac for 1883.

A Cold Day.

This has been an extremely cold day for many applicants as attaches to our Legislature; we advise them to secure some of F. Levy & Bro's warm flannels, which they are now selling at greatly reduced prices.

THE MERRY MASKERS.

The Knights of Pythias Masquerade Ball Proves a Great Success.

A lovely evening was provided for the Knights' ball on Friday and the large pavilion was too small for the crowds of merry maskers and spectators who gathered there.

The Reno band never played so well and the floor was never better offered. Colonel Robert H. Inger Lindsay was quite at home as Director, and he was ably assisted by other members of the order. The costumes showed a vast amount of labor on the part of somebody, while the ideas conveyed were in all degrees and shades of fun and taste.

Many were very elegant and costly and some were equally elegant without being costly. Valuable prizes were awarded in accordance with the judgment of committees appointed, and the usual difference of opinion existed in the minds of the audience. The first for the best sustained character was given to Mrs. J. F. Aitken who appeared as Grandma Jenkins. Mrs. R. W. Parry was decided to be the best dressed lady and Hayward Heriot the best dressed gentleman. The drum corps was voted to be the best group but the Indians were given a special prize. Miss Starling and Miss Timmons took the prize for the best home-made dresses and divided it between them. They were dressed as Grecian maidens and no statue could have been more classic in appearance. S. J. Hodgkinson with the drum corps led the grand march. The maskers represented the following characters:

The Comstock lode was represented as follows:—Con. Va., Leona Ranous; Ophir, Cora Ferguson; B. & B., Mrs. Geo. Wilson; G. & C., Josie Barnett; H. & N., Beekie Fredrick; S. N., Fanny Russick; C. P., Emma Haslund; Y. J., Sarah Steele.

The Only Way to Conquer Dyspepsia.

It is perfectly preposterous to introduce pepsin and other artificial solvents into the stomach, in the expectation that they will assist digestion by acting on the food itself. They will not. Nor is it possible thus to overcome dyspepsia. The only way to conquer that disorder, and prevent the numerous diseases and disabilities which it assuredly provokes, is to renew the activity of gastric action by strengthening the stomach. Hostetter's Stomach Bitters eradicate the most inveterate forms of indigestion by restoring vitality to the alimentary organs, and those which are tributary to them. The liver, the bowels, the kidneys and the nerves, no less than the stomach, experience the invigorating effects of that standard tonic, which bestows alacritude and vigor, and greatly enhance its beneficial influence, and give a permanence to its effects which they would not otherwise possess.

Taking up Claims.

Harry Clark came in from Pyramid Saturday. He says that as soon as the clock struck 12 Friday night the work of re-locating claims began. He put a location on the Jones & Kinkaid for General Clark. The parties who hold the mortgage on the mine have done \$100 worth of work on it, but the law says the owners must do the work. T. K. Hymers also drove out and put a location on the claim. A number of other claims were jumped very early in 1887.

When baby was sick, we gave her Castoria. When she was a child she cried for Castoria. When she became a woman, she clung to Castoria. When she had children, she gave them Castoria.

A Saffeguard.

The fatal rapidity with which slight Colds and Coughs frequently develop into the gravest malady of the throat and lungs, is a consideration which should compel every prudent person to keep at hand, as a household remedy, a bottle of AYER'S CHERRY PECTORAL.

Nothing else gives such immediate relief and works so sure a cure in all affections of this class. That eminent physician, Prof. F. Sweetzer, of the Maine Medical School, Brunswick, Me., says:—

"Medical science has produced no other remedy so good as AYER'S CHERRY PECTORAL. It is invaluable for diseases of the throat and lungs."

The same opinion is expressed by the well-known Dr. L. J. Addison, of Chicago, Ill., who says:—

"I have never found, in thirty-five years of continuous study and practice of medicine, any preparation of so great value as AYER'S CHERRY PECTORAL, for treating diseases of the throat and lungs. It not only breaks up colds and cures severe coughs, but is more effective than anything else in relieving even the most serious bronchial and pulmonary affections."

AYER'S Cherry Pectoral

Is not a new claimant for popular confidence, but a medicine which is today saving the lives of the third generation who have come into being since it was first offered to the public.

There is not a household in which this invaluable remedy has once been introduced where its use has ever been abandoned, and there is not a person who has ever given it a proper trial for any throat or lung disease susceptible of cure, who has not been made well by it.

AYER'S CHERRY PECTORAL has, in numerous instances, cured obstinate cases of chronic Bronchitis, Laryngitis, and even acute Pneumonia, and has saved many patients in the earlier stages of Pulmonary Consumption. It is a medicine that only requires to be taken in small doses, is pleasant to the taste, and is needed in every house where there are children, as there is nothing so good as AYER'S CHERRY PECTORAL for treatment of Croup and Whooping Cough.

These are all plain facts, which can be verified by anybody, and should be remembered by everybody.

Home Suggestions.

Do not keep drinking water in a galvanized iron pail. The zinc coating acts readily upon the water and forms a poisonous oxide.

Boil your lamp-burners for about half an hour, once a month. This will remove dust and grease and make them "as good as new."

Some people use a piece of polished steel to bake pancakes on, and offensive smoke is avoided, because the griddle is not greased.

There is not much trouble involved in placing warm plates on the table at each meal during the winter. And they are much nicer to eat from than cold ones.

A teaspoonful of lime-water stirred in one-half a tumbler of cold water and swallowed directly after a hearty meal will relieve symptoms of indigestion and the desire to take "just forty winks" of sleep.

To remove clinkers from the stove, sprinkle common table salt on the clinkers when the stove is cold. Use plenty of it. Build a moderate fire—wood and coal—and in a day or two the clinkers will all be gone.

When hanging up the family washing in cold weather, don't wait until you get outdoors to shake the twist out of the clothes. That operation can be performed just as well indoors, and unnecessary exposure to cold is thereby avoided.

Brass work around the house can be nicely polished by using a thin mixture of rotten stone and water to which has been added a teaspoonful of sulphuric acid for each pint of water. Apply to the brass, rub off and polish with dry whiting.

An excellent grease eradicant is made of the following ingredients: Ammonia, two ounces; soft water, one quart; saltpeter, one teaspoonful; fine soap, in shavings, one ounce; mix thoroughly and keep in a covered vessel. This receipt is a simple one, yet it has made millions of men who have successfully controlled proprietary rights to use it.

A Curious Story.

In a large factory, in which were employed several hundred persons, one of the workmen in wielding his hammer, carelessly allowed it to slip from his hand. It flew half-way across the room, and struck a fellow-workman in the left eye. This man claimed that his eye was blinded by the blow, although a careful examination failed to reveal any injury, there being not a scratch visible. He brought a suit in the courts for compensation for the loss of half of his eyesight, and refused all offers of a compromise. Under the law, the owner of the factory was responsible for an injury resulting from an accident of this kind, and although he believed that the man was shamming, and that the whole case was an attempt at swindling, he had to make up his mind that he would be compelled to pay the claim.

The day of the trial arrived, and in open court an eminent oculist retained by the defense examined the alleged injured member, and gave it as his opinion it was as good as the right eye. Upon the plaintiff's loud protest of his inability to see with his left eye, the oculist proved him a perjurer, and satisfied the court and jury of the falsity of his claim. And how do you suppose he did it? Why, simply by knowing that the colors green and red combined make black. He procured a black card on which a few words were written with green ink. Then the plaintiff was ordered to put on a pair of spectacles with two different glasses, the one for the right eye being red, and the one for the left consisting of ordinary glass. Then the card was handed him, and he was ordered to read the writing on it. This he did without hesitation, and the cheat was at once exposed.

The sound right eye, fitted with the red glass, was unable to distinguish the green writing on the black surface of the card, while the left eye, which was claimed to be sightless, was the one with which the reading had to be done.—[Harper's Young People.]
